Not recommended

President.

Members.

I am of opinion that he is in good bodily health, and has the prospect of an average duration of life.

I do recommend compliance with his application to be allowed to capitalize a portion of his pension, and the age for this purpose should be taken at years (being years more than the actual age [i.e. his age next birthday]).

I have found the applicant to be corresponding with the identification marks described in the application for commutation of pension.

Reasons for non-compliance with application

or

(b) Recommendation of increase in years above actual age.
